PROFESSIONAL SUMMARY

Full-Stack Web Developer with two years of experience in website and web application development. Hands-on experience with React, Node.js, Express.js, PostgreSQL, REST APIs and JWT authentication, complemented by PHP and WordPress skills. Final-semester Software Engineering student seeking remote development opportunities.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, React, Tailwind CSS, responsive web design

Backend: Node.js, Express.js, PHP, REST APIs, JSON Web Tokens (JWT)

Databases: PostgreSQL, SQL, Prisma ORM, database migrations

Tools and platforms: Git, GitHub, WordPress

Development practices: Debugging, API integration, AI-assisted development

PROJECT EXPERIENCE

IKMela

E-commerce Web Application | Full-Stack Developer | In development

- Developed responsive React interfaces for product browsing, categories, login, cart and checkout pages.
- Connected frontend login and logout flows to a Node.js and Express.js backend using REST APIs and JWT authentication.
- Implemented password hashing with bcryptjs and configured request parsing, CORS and JSON error responses in Express.js.
- Designed PostgreSQL product data models with Prisma for pricing, inventory, SKUs and category data; applied migrations and seed data.
- Diagnosed and resolved database connectivity and frontend-backend integration issues during local development.

EDUCATION

Bachelor of Science in Software Engineering

National University of Modern Languages (NUML)

Final semester | Expected completion: January 2027

LANGUAGES

English, Urdu, Pashto
